CODER-RAHUL9038   PORTFOLIO

SKILLS

Front-End Technologies – *HTML5, CSS3, JavaScript (ES6+), DOM, Events, Responsive UI, Flexbox, Grid, Basic React.js*
Back-End Technologies – *Node.js, Express.js, REST API Development*
Databases – *MongoDB, Mongoose, SQL*
Tools & Environments – *Git, GitHub, VS Code, NPM, Postman,Hopscotch*
Core Concepts – *Authentication, JSON, Fetch API, Routing, Middleware, MVC Basics*
Development Practices – *Debugging, API Testing, CLI Operations, Deployment (Render/Vercel),GSC.*

PROJECTS

Camellia – Full-Stack Property Listing Platform (Airbnb-Style)

Live: https://major-project-zz1b.onrender.com/listings
GitHub: https://github.com/CODER-RAHUL9038/MAJOR_PROJECT/tree/main/CAMELLIA

Tech: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, EJS

- *Architected and deployed a full-stack property listing platform featuring secure user authentication and role-based authorization using Passport.js*
- *Developed scalable RESTful APIs for listings, users, bookings, reviews, and ratings with Express.js and middleware-driven request handling*
- *Implemented full CRUD functionality for property listings, including image upload support and ownership-based access control*
- *Designed a reviews and ratings system with proper user validation to prevent unauthorized modifications*
- *Modeled relational data using MongoDB and Mongoose, optimizing schema design for performance and maintainability*
- *Built a dynamic, server-rendered UI using EJS templates and reusable components for consistent user experience*
- *Applied centralized error handling, input validation, and session management for production-ready backend stability*
- *Deployed the application on Render using environment-based configuration and secure environment variables*

Other Mini Projects (All Deployed)

Link: https://github.com/CODER-RAHUL9038/PROJECTS

- *GenKey – Password Generator, InstaBlog – Social Media Blogging App, Simon Says Game, Clock, Calculator etc.*
  All mini projects are deployed and demonstrate strong hands-on experience with JavaScript and DOM manipulation.

EDUCATION

- ❖ *Budge Budge Institute Of Technology(MAKAUT*   *CGPA:* **8.62** *| (2017-2021)*
- ❖ *XII (ISC) |St. Joseph And Mary's School*   **66.5%** *| 2017*
- ❖ *X(ISCE) |Orient Day School*   **67.0%** *| 2015*

EXPERIENCE

- ❖ **Off-Road SDS Associate | Amazon**   *(05/2024- 02/2025)*

  Resolved 99% of delivery incidents within SLA, managed onboarding/offboarding with 100% accuracy, and trained 10+ associates, boosting productivity by 70%. Earned 4 awards: Achiever of the Month, Superstar of the Month, Extra Mile Award, and MVP.

- ❖ **On-Road SDS Associate | Amazon**   *(08/2022- 05/2023)*

  Developed expertise in real-time problem-solving, effective communication, and on-road support by resolving 99% of delivery incidents within SLA, assisting drivers with troubleshooting, managing delivery operations, and ensuring seamless coordination using internal systems.

- ❖ **Technical Associate| BBIT**   *(11/2021- 07/2022)*

  Conducted lab classes, dry-ran instruments, maintained well-equipped labs, and contributed to maintaining NBA affiliation and achieving NAAC B+ rating through effective teamwork.

ACHIEVEMENTS / HOBBIES

- ❖ **Recognized with all 4 awards in a single month**: *Achiever of the Month, Superstar of the Month, Extra Mile Award, and MVP at* **Amazon**.
- ❖ **Playing BGMI (Battlegrounds Mobile India)** – *Fosters strategic thinking, enhances team collaboration, and improves quick decision-making under pressure.*
